May 27, 1922.

54261/276-A

Mr. F. W. Berkshire,
Supervising Inspector,
Immigration Service,
El Paso, Texas.

My dear Mr. Berkshire:

I am inclosing copy of a memorandum relative to a conference on cooperation in border work at which representatives of various Departments were present. You will note the memorandum says that "the great problem on which they all desire help is that of police work or patrol duties." I read your letter of April 13 (your number 5026/149) relative to this subject and, of course, took occasion to emphasize our view of the importance of a coordinated border patrol.

I am sending this merely because of your deep interest in the subject.

Very truly yours,

H.

Commissioner General.
